CHLOR*RID®

LIQUID SOLUBLE SALT REMOVER

DATA SHEET

DESCRIPTION: CHLOR*RID is an organic bonding chemical blend which aids in the removal of chlorides, sulfates and surface reacted salts. Contains no volatile organic compounds (VOC's), and is biodegradable.

CHLOR*RID is recommended for use in a maintenance wash solution to reduce corrosion and as part of surface preparation prior to application of primers or coatings on a variety of surfaces, including ferrous and non-ferrous metals, concrete, and others.

SURFACE PREPARATION: Best surface preparation yields the best results. If hydrocarbons are present, they should be removed prior to salt removal. Barrier materials, such as rust or scale or delaminated coatings, should be removed prior to salt removal. Sufficient mechanical force, such as pressure washing, wet abrasive blast, dry blast, or hand power tooling may be utilized for barrier materials to be removed as part of surface preparation procedures.

APPLICATION: CHLOR*RID can be introduced and applied by a variety of means. See Directions for hand cleaning, pressure washing, UHP waterjetting wet abrasive, and vapor/mist blasting methods. Contact CHLOR RID International, Inc. for other methods or technical support.

Before and after cleaning a small sample area (usually 25 Sq. Ft.), test the surface for contamination. Adjust travel speed, pressure or dilution as necessary and retest to assure desired cleanliness level is achieved. It is not necessary to use the entire contents. Partially filled containers should be closed tightly.

EQUIPMENT CLEANUP: Flush with clean fresh water.

|--|-----------------------------------|
| * Color: Blue | * Packaging: 1/5/55 U.S. Gallon |
| * Typical coverage: 300-1000 Sq. Ft./ Gal. | * Single Component |
| * No VOC's | * Shelf Life: 36 months |
| * pH 3.3 (+/- 0.2) | * Application Temperature: +32° F |
| * Keep from freezing – if frozen, thaw before use. * Non-Flammable | |

WARRANTY: CHLOR RID International Inc. warrants this product to be identical in chemical and physical properties from batch to batch within the specification limits of the raw materials used in their manufacture.

SAFETY PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Do not mix with other chemicals. See M.S.D.S. for full precautions prior to use. This product is intended for professional use only.
